The Turtle Mountain Community College’s Teacher Education Department is designed to fulfill the following ideals:

- To prepare teachers who are culturally responsive to students, colleagues, and paraprofessionals within the community we serve.
- To serve as an educational change center committed to teachers in the field.
- To provide an array of educational resources for the schools within our cultural and geographical region.

To fulfill these ideals, the Teacher Education Department has adopted the following goals:

1. The teacher education curriculum will address the histories and contributions of various ethnic/cultural groups.
2. Candidates will be guided in the development of a sense of their own ethnic and cultural identities.
3. Candidates will examine their attitudes toward others on the basis of race, culture, religion, gender, SES, sexual orientation, abilities, etc.
4. Candidates will learn about high engagement practices and strategies that ensure quality learning experiences for all students.

**Note:** We will need to work collaboratively with in-house (TMCC) and local administrators to determine how we can best fulfill their needs in response to the last bulleted item above.

In an effort to position itself to better incorporate these ideals into the exiting TED curriculum/coursework, and to better respond to the requirements embedded in NDCATE Professional Standard 4: Diversity, the department has outlined current practice that supports achievement of the diversity standard and has structured a plan designed to offer a broad range of cultural awareness/diversity experiences to candidates throughout the course of their TMCC education program.

The design of every course offered to students in the TMCC teacher education department responds, to some degree, to the first ideal, “to prepare teachers who are culturally responsive to students, colleagues, and paraprofessionals within the community we serve.” Included below is a sampling of the cultural and diversity perspective. As stated in our Teacher Education Department Mission Statement, “(TED) aspires to transform this industrial model into a culturally responsive teaching model that is learner-centered, content rich, and instructionally adaptive to all learning styles and multiple intelligences.” Below is a sampling of how TED coursework currently addresses Standard 4 through existing course content.

Understanding that the intent of Standard 4 is to go beyond culture and delve into all aspects of diversity, the TED incorporated a much broader perspective and focus in an effort to go beyond the ideal, “to prepare teachers who are culturally responsive to students, colleagues, and paraprofessionals within the community we serve.” To that end, the following global diversity plan was created. Understanding the importance of addressing components 4a through 4d of the diversity standard, TMCC TED is collaborating with Mayville State University to engage students from both programs in collaborative work through campus visits and distance learning activities. The action plan below was devised to transform vision into action.

<tbody>
<tr>
<td>Guest Speaker</td>
<td>Hispanic Perspective</td>
<td>Students will incorporate the Hispanic perspective into their understanding of diverse cultures/perspectives.</td>
<td>Comparison Survey Discussion</td>
</tr>
<tr>
<td>Guest Speaker</td>
<td>Lakota Perspective</td>
<td>Students will compare Lakota/Anishinabe/Metis cultures – similarities and differences. They will incorporate the unique native perspective or the Lakota into their own schema of cultural understanding.</td>
<td>Discussion Reflection Paper Student Surveys</td>
</tr>
<tr>
<td>Cultural Music Presentation</td>
<td>Local music teacher will bring instruments from a variety of cultures and share the history and evolvement of instruments and music, along with how they can be used in classrooms to create a diverse classroom experience.</td>
<td>Compare similarities/differences of music and purpose served from around the globe. Identify at least 3 things all music has in common (melody, rhythm, harmony). Observe commonalities in instrument families – brass, woodwind, string, percussion – and identify instruments unique to local culture.</td>
<td>Discussion Reflection Paper Student Surveys</td>
</tr>
<tr>
<td>Mayville State/TMCC Exchange Day</td>
<td>The teacher education cohort will visit Mayville State University one time per year, as part of the collaboration agreement our two teacher education departments have developed in response to the need to meet the NCATE Diversity Standard.</td>
<td>4c. Students will participate in a professional development event hosted by sister institute through a paired learning experience and share perspectives.</td>
<td>Participation Observations Journal Reflections Survey feedback</td>
</tr>
<tr>
<td>Mayville State /TMCC Exchange Day</td>
<td>TMCC will host Mayville State U teacher education students and provide a local culture experience to be shared with them. This, too, is a part of the two institutes’ efforts to meet NCATE Standard 4.</td>
<td>4b. Students will have the opportunity to interact with a diverse group of faculty and peers. 4c. Students will participate in a professional development event hosted by sister institute through a paired learning experience and share perspectives.</td>
<td>Participation Observations Journal Reflections Survey feedback</td>
</tr>
<tr>
<td>School District Visit (Minot Air Force Base) and/or area schools outside of Rolette County</td>
<td>Site visit to schools hosting diverse student populations.</td>
<td>TED students will observe strategies and programming employed to serve diverse populations.</td>
<td>Students will compare notes and write reflections regarding observations during school visits</td>
</tr>
<tr>
<td>School District Visit (Minn)</td>
<td>Site visit to schools hosting diverse student populations.</td>
<td>TED students will observe strategies and programming employed to serve diverse populations.</td>

The Teacher Education Department submitted a budget designed to provide this broad range of experiences, and we are awaiting approval. In addition, the department has engaged in activities designed to establish a long range relationship with Mayville. Some of our TED students have visited Mayville to hear speaker Kenneth Williams and to engage in dialogue with Mayville teacher education students. Members of the department have also met with Mayville’s Teacher Education Department Chair, Andi Duski-Bucholz, to initiate what is hoped to be a long-standing collaborative effort designed to deepen the diversity experience for students on both campuses.
