1. First Reading of FY 2012-13-14 Budget by Dr. Davis and Tracy Azure
Dr. Davis and Tracy Azure presented documentation to present the first reading of the budget. Dr. Davis reminded the board about the meeting scheduled for next Friday, March 25th, 2011 with P2P to discuss the Keystone Project, so budget information will be provided on the south campus.

Theresa Rivard entered at 9:11 a.m.

See Tracy Azures report, appendix A. Tracy presented the Budget Process Report in detail.

- There are a number of expenses that we have incurred in the past few years that have been unexpected expenses, but we should not have in the future.
- Salary budgets have been putting the College into deficit spending for the past 4 years.
- The Board discussed the itemized budget and deficit spending which has been occurring for the past 4 years.
- The wind turbine is not producing the amount of electricity that they were previously informed it would. It is suggested that an engineer be brought in to optimize the options with the wind turbine. It was suggested that perhaps a grant can be applied for to assist
with possibly relocating the wind turbine to make it more efficient for the College. A lengthy discussion was held in reference to the turbine.

Robert Lattergrass entered at 9:44 a.m.

- South Campus expenses. **Robert Lattergrass would like to make a motion to close the South Campus and asked Dr. Davis to develop a plan to accomplish this request.** Robert would like P2P to take the buildings. The College is currently subsidizing other programs that do not have an affiliation with the College. Tracy Azure will locate the current leases with the unaffiliated programs to determine when the leases are up and if rates could be increased. It was previously reported to the Board when the College relocated that we would be generating income on the rental property. Duane requested that Dr. Davis provide a recommendation to the Board within a week. Chairperson Poitra asked for a second to Robert Lattergrass’ motion. The motion did not receive a second, so the motion died.

- The budget committee has discussed various different options. The north side of the street is tribal land; the south side of street is college land for which P2P is located. Possibly move our programs to the P2P building. We are currently subsidizing P2P.

- Once we have our meeting with P2P, the Board would have a better understanding of what they are proposing. Lengthy discussion held.

- Carla Peltier suggested Dr. Davis be in contact with all of the departments which are going over the budget and inform them that increased spending is not going to be allowed. Discussion held. Salaries can be another issue. There are employees abusing the system and not putting in their 40 hours a week, some don’t have enough work, and others are overloaded. Carla informed Dr. Davis that he should discuss this at the next staff meeting and inform the employees that their work efforts are being received.

Dennis Bercier entered at 10:39 a.m.

- Chairperson Poitra suggested that preventive maintenance should be taken care of to assist with costs of maintaining the buildings, offices, bathrooms, etc.

- There have been a few training sessions for the program directors to inform them of the processes and procedures that need to be taken. Each department needs to stay within their budget and not be allowed to exceed the amount that has been budgeted. This has been a weakness in the past, but the budget committee will continue working to make positive recommendations concerning the budget.

Dennis Bercier exited at 10:56 a.m.

- Robert Lattergrass would like the salaries and wages broken down by each job description. The salaries have almost doubled in the past few years. Carla would like to see a list of current employees.

- Dr. Jeanotte would like to see that we do not go into deficit spending and actually set up a budget which includes putting money into reserves again. Every employee needs to get on board with Administration on saving as much as possible.

- We have three separate issues which need to be handled, which are: P2P, South campus expenses, and the budget. The Board would like a 2nd reading on the budget in April and finalize it in May. The south campus information should be finalized by this time.
Tracy will present the salary information at the special meeting to review the budget. April 14th at 5:00 p.m. for the 2nd reading on the budget and salary information proposal.

- Further discussion being held on the cafeteria expenses vs. revenues. The cafeteria is still in deficit spending, and the College has already contributed $25,000. They are currently making a little revenue and will hopefully make a full recovery by the end of the year.

- Discussion was held on the basketball team. The games are not bringing in enough of revenue to cover the expenses.

Break for lunch at 11:47 a.m.
Reconvene at 12:11 p.m.

- Tracy Azure presented the overall budget proposal to the Board. This is currently the first reading of the budget and some area’s still need to be reviewed. A lengthy discussion was held. Dr. Davis will look into the electricity expense and wind turbine issues.

- The security contract will be reevaluated. Possibly bring back for TMCC to handle. The camera system has made the College more secure.

- Pertaining to the P2P meeting, the Board does not know of any information they need from Tracy. Lengthy discussion held in reference to the downtown renovation.

Theresa Rivard exited at 1:06 p.m.

2. **Contract Negotiations for Vice President, Comptroller, and Human Resource Director**

Dr. Jeanotte feels that it doesn’t make sense for the Board to negotiate the salaries of the selected individuals. Dr. Davis should be able to negotiate the salaries, at which time Dr. Davis bring the negotiations forward. This is included in the current policy. Duane Poitra suggested that at the next meeting, the policy on this issue could be amended. Dr. Davis will present the policy change.

VI. **Next Meeting:**
