The image shows the logo for Turtle Mountain Community College, identical to the one in the previous screenshot. It features a circular emblem with a Native American figure holding a bow and arrow, surrounded by a sunburst pattern. To the right of the emblem, the text "Turtle Mountain" is written in a large, bold, white serif font, and "Community College" is written in a smaller, white sans-serif font below it.

6. Click Begin Setup

7. Click the plus sign next to OneLogin Protect

8. Grab your smartphone, open the App Store or Google Play. Search for OneLogin Protect

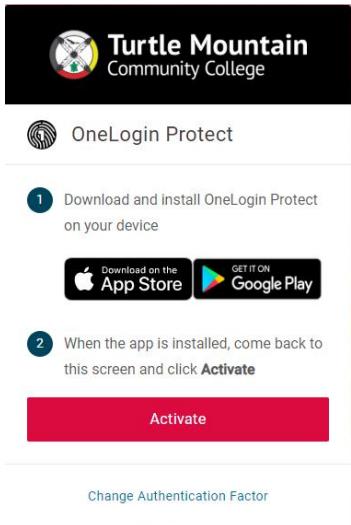

9. Download the OneLogin Protect App on your phone

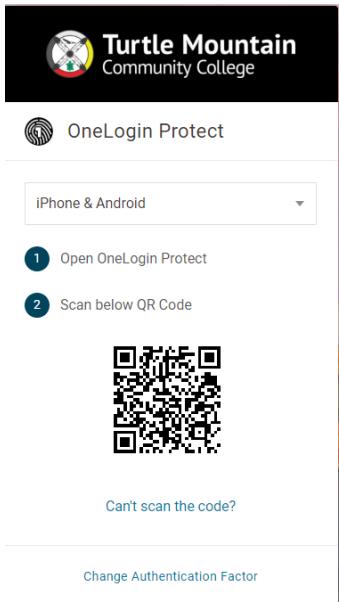

10. The app below will appear on your phone

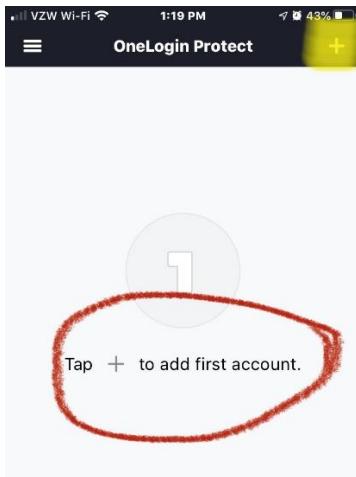

11. Then go back to your Computer and click “Activate”

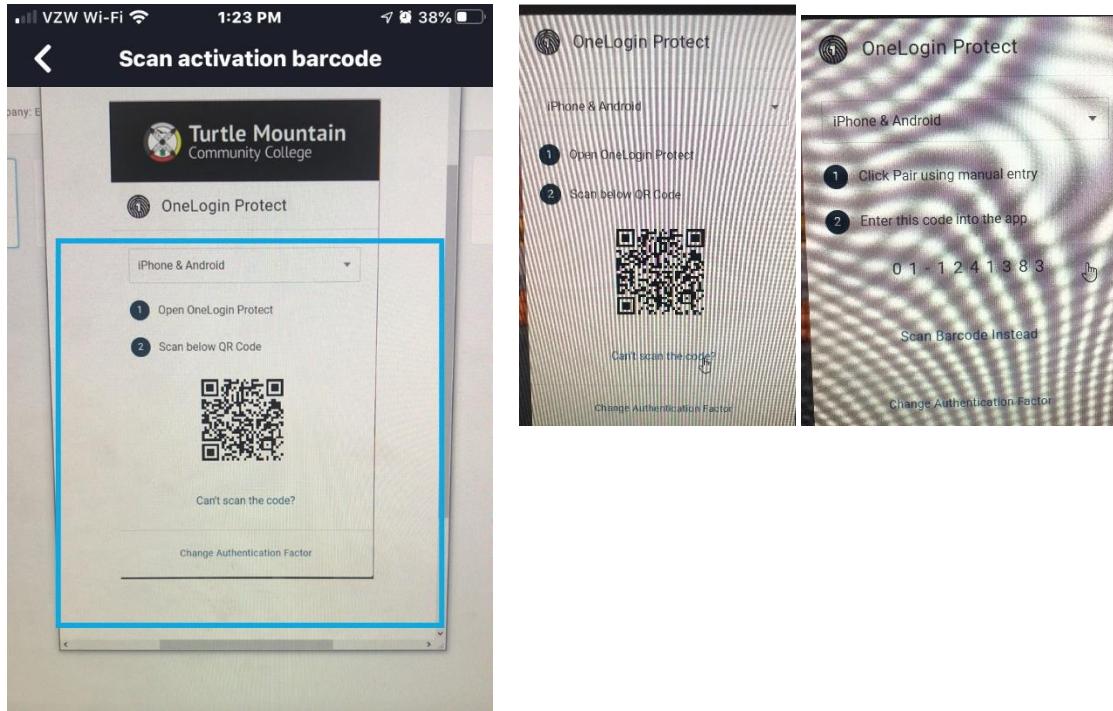

12. You will get the following screen.

13. You will need to then open the OneLogin Protect App on your phone, click the plus sign to add an account

14. Put your phone near the computer screen and scan the QR code. *Note: If scanning the QR code is not working, you may click on "Can't scan the code?". This will provide you with a code to manually enter on your phone.*

15. The computer will route you directly to your app screen once the code is accepted.
