1.2.0000 HISTORY AND ACCREDITATION

2.0010 HISTORY

Turtle Mountain Community College (TMCC) is one of the original six tribal colleges established by various Indian tribes in the early 1970's. The Turtle Mountain Chippewa Tribe chartered the College in November 1972. The TMCC is located in north central North Dakota in the historical wooded, hilly, and lake-filled area known as the Turtle Mountains. In addition to being the home of the Turtle Mountain Chippewa, the area is the home of the world-renowned International Peace Garden.

In its brief history, the College has emerged as a leader among this nation's 36 tribal colleges. Its origin was humble. For the first few years the College operated with two offices on the third floor of a former Catholic Convent. For a short period, the College operated in the basement of an abandoned Indian Health Service facility. In 1977, the College moved into an abandoned tribal building and a BIA facility that had been moved to Belcourt's main street by a tribal member who converted the building to a café and dance hall. It was on Belcourt's main street that the College later purchased and renovated several old buildings and as funding became available built a series of primarily metal buildings.

In May 1999, the College moved to a new campus and a new facility. The new facility is located 2 ½ miles north of Belcourt. TMCC's new main campus includes a 124,000 -square foot building located on an approximately 123-acre site. The new facility includes state of the art technology; a fiscal area; general classrooms; science, math and engineering classrooms; labs; library and archives; learning resource center; faculty and student services area; gymnasium and mechanical systems; an auditorium with seating capacity for 800; Career and Technical Education building; and a new Student Center. The former main campus in Belcourt has twelve buildings that provide 66,000 square feet of space. Both campuses are being used for college or community use. The Anishinabe Learning, Cultural and Wellness Center is located 1.5 miles North of Belcourt on BIA # 7. The Center is a beautiful and symbolically powerful site. The Center consists of 102.5 acres of spectacular natural beauty and ponds, with Ox Creek running through the area. The Anishinabe Learning, Cultural, and Wellness, Center is the home for the 1994 Land Grant Programs.

SECTION 1 INTRODUCTION

The three campuses house all College functions with the exception of some off-campus community responsive training programs. TMCC is a commuter campus and maintains no residence halls.

Since its beginning, the College has grown from a fledgling institution serving less than sixty students per year, to its current status of serving approximately 650 full-time equivalents and approximately 250 pre-college adults. Indeed, TMCC has demonstrated success in enrolling and graduating students. The College serves the tribal community in other ways as well. Its many programs are helping to build local capacity to effect positive systemic change by improving all levels of educational achievement of tribal members and public and private economic sustainability of the Turtle Mountain Band of Chippewa Indians. Turtle Mountain Community College is a member of the American Indian Higher Education Consortium (AIHEC), which consists of Indian controlled colleges banded together to support mutual development activities. The College is eligible for services through AIHEC's Development Office in Resource Development, Curriculum Development, Research and Data Assistance, Cooperative Education Programming and Human Resource Development.

2.0020 ACCREDITATION

The Higher Learning Commission (HLC) accredits the College. Accreditation is not a requirement but is important to the College. According to the HLC, "Accreditation is both a process and a result." As a process, it is a form of peer review in which educational institutions establish a set of criteria and procedures by which they and their fellows are judged. As a result, it is a form of certification by which the quality of an educational institution, as defined by the accreditation body's criteria, is affirmed."

4.10.0000 CONFLICT OF INTEREST

10.0010 INTRODUCTION

Turtle Mountain Community College maintains uniform policies and standards for identifying, and removing, actual Conflicts of Interest and has adopted policies and procedures for managing situations that could give rise to potential or perceived Conflicts of Interest. In determining whether an actual, potential, or perceived Conflict of Interest exists in a given situation, the Turtle Mountain Community College will consider the specific details of the situation and make a determination based on the totality of the circumstances. Turtle Mountain Community College believes that clear guidelines and principles for reporting and managing actual, potential, and perceived Conflicts of Interest will assist our faculty, staff, and students in maintaining the highest level of integrity in their endeavors.

10.0020 POLICY STATEMENT

- .01 An actual Conflict of Interest arises in a situation where financial or other personal or professional considerations compromise an individual's objectivity, professional judgment, professional integrity, and/or ability to perform his or her professional responsibilities to Turtle Mountain Community College. In addition to situations that clearly give rise to an actual Conflict of Interest, individuals are cautioned also to consider gray areas that might

create the perception of or the potential for a Conflict of Interest. Perceived or potential Conflicts of Interest can be said to exist in situations where an individual member of Turtle Mountain Community College (Member), a member of the individual's family (Family), or a close personal relative (Close Relative) has financial interests, personal relationships, or professional associations with an individual, individuals, or outside organization, such that his or her activities within Turtle Mountain Community College could appear to be influenced by that interest or relationship.

- .02 A financial interest would not include matters that affect the entire employee population. An example of not having a financial interest would be a COLA increase.
- .03 All Members of the Turtle Mountain Community College community are committed to identifying and avoiding situations and activities that constitute a Conflict of Interest in the execution of their duties for Turtle Mountain Community College. Furthermore, activities, situations, and relationships that might create the perception of or potential for a Conflict of Interest must be identified and managed appropriately. In every instance, Turtle Mountain Community College reserves the right to make a determination in light of its best interest.
- .04 On no less than an annual basis, all Members, whether they are engaged in activities that might create the perception of or potential for a Conflict of Interest or not, are required to submit a Conflict of Interest Disclosure Survey to the Vice-President or President.

10.0030 CONFLICT OF INTEREST CATEGORIES

- .01 Situations and activities may be grouped into one of three categories under this Conflict of Interest Policy:

Category A: Not Significant and Generally Permissible Activities Situations where any Financial Interest held by a Member, Member's Family, or Member's Close Relative does not indicate a Significant Financial Interest and where the situation suggests no actual, potential, or perceived Conflict of Interest. These situations may continue without special safeguards or oversight.

Category B: Potential or Perceived Conflicts of Interest Activities which represent Potential or Perceived Conflicts of Interest would be permitted to go forward after disclosure with an approved Management Plan.

Category C: Actual Conflicts of Interest Activities which represent actual Conflicts of Interest, and which may be permitted to go forward after disclosure only with an appropriate Management Plan to eliminate the conflict, safeguard against prejudice toward College activities, and provide continuing oversight.

10.0040 SCOPE

This policy is applicable to:

- All TMCC Board members

SECTION 4 FISCAL MANAGEMENT

- .01 Many employees either have positions that allow them to influence College decisions, or they have been entrusted with the authority to make decisions for the College. Conflict of interest exist if an employee's position or authority may be used to influence or make decisions, or have the appearance of influence, that lead to any form of financial or personal gain for that employee or for his or her family. The bias can affect collection, analysis, and interpretation of data, hiring of staff, and procurement of materials.
- .02 In academic research, the term conflict of interest refers especially to situations in which financial or other personal considerations may compromise, or may have the appearance of compromising, an investigator's professional judgment in conducting or reporting research.
 - 1) The bias can effect collection, analysis, and interpretation of data, hiring of staff, and procurement of materials, sharing of results, choice of protocol, and the use of statistical methods. Conflict of interest can affect all scholarly fields.
 - 2) It is acknowledged that, in their wider roles as academicians and professionals, the faculty may be subject to conflicts of interest that are not necessarily financial and that are not within the scope of a policy that is designed to address conflicts of interest in the employer-employee setting. Academic and professional activities not covered by this policy are best handled within the ethical guidelines of the College outlined in the code of conduct.
 - 3) In academic administration, the term conflict of interest refers especially to situations in which financial or other personal considerations may compromise, or have the appearance of compromising, decisions made by administrators.

Conflict of interest situations, or the appearance of conflicts of interest, have the potential to result in serious harm and direct losses to the College. The losses are often difficult to detect and include not only direct monetary losses and loss confidence in the College, but also negative publicity and erosion of employee morale.
- 18) It is the policy of the College that its officers, faculty, staff and others acting on its behalf have the obligation to avoid ethical, legal, financial, or other conflicts of interest and to ensure that their activities and interest do not conflict with their obligation to the College or to its welfare.

If an employee believes that he or she may have a conflict of interest, the employee shall promptly and fully disclose the conflict to the Vice-President and President and shall refrain from participating in any way in the matter to which the conflict relates until the conflict in question has been resolved.  - To maintain open lines of communication with the BOD, providing in-depth activity reports at each regularly scheduled meeting of this body.
- .02 As such, the Investment Committee is authorized to delegate certain responsibilities to professional experts in various fields. These include, but are not limited to:
 - Investment Consultants - The consultants may assist the Investment Committee in establishing investment policy, objectives, guidelines; selecting investment managers; measuring and evaluating investment performance; and other tasks deemed appropriate.
 - Investment Managers - The investment managers have the discretion to purchase, sell, or hold the specific securities in accordance with the Board approved investment policies and guidelines that will be used to meet the College's investment objectives.
 - Custodians - The custodians will physically maintain possession of the securities owned by the College, collect dividend and interest payments, redeem maturing securities, and effect receipt and delivery following purchases and sales. The custodians may also perform regular accounting of all assets owned, purchased, or sold as well as movement of assets into and out of the College accounts.
 - Additional specialists such as attorneys, auditors, and other may be employed by the College as recommended by the investment Committee to assist in meeting its responsibilities and obligations to administer College assets prudently.

15.0040 INVESTMENT PHILOSOPHY

- .01 The assets exist to provide long-term support to Turtle Mountain Community College.
- .02 Accordingly, the investment philosophy is based on a disciplined, consistent, and diversified approach utilizing various asset classes and management skills, with intent to accommodate styles and strategies considered reasonable and prudent.
- .03 The College spending policy will necessitate distributing a significant portion of the investment return each year and may occasionally require distribution of capital assets. However, over the long term, the investment return is expected to be greater than the amount distributed and this excess return will be reinvested. The reinvested portion should

SECTION 4 FISCAL MANAGEMENT

be sufficient to cover expected future inflation and investment management and related fees so that the real value of the College's assets is preserved and maintained over time.

- .04 Assets may be invested in pooled funds or in direct investments, or a combination of the two. Assets will typically be diversified among high quality stocks and bonds. Additional asset classes may be included when it is reasonable to expect the additional asset class will increase return and/or reduce risk.
- .05 Investment managers shall be selected from established and financially sound organizations, which have a proven and demonstrated track record managing similar funds. Selection of the investment managers shall depend upon factors established by the BOD and will be consistent with the laws of the State of North Dakota. Such factors include, but are not limited to the manager's investment philosophy, experience and depth of personnel, investment process, past performance, and fee structure. The College recognizes its responsibility as a stockholder to encourage corporate citizenship, as well as corporate growth, in the companies whose shares are owned by the College. Corporate citizenship and social responsibility will be encouraged, based upon information available to the Investment Committee.

15.0050 INVESTMENT OBJECTIVES

The primary objective of the College's asset management program is to preserve its real (inflation adjusted) purchasing power while providing a relatively predictable, stable, and constant (in real terms) stream of earnings consistent with prudent risk limits and the College's spending needs.

To meet this broad objective, the specific performance is to attain, within acceptable risk levels, an average annual total return that meets or exceeds the sum of the College's spending (distribution) rate plus inflation plus investment management and related fees. Our focus will be on total return without regard to whether that return is in the form of income or capital gains. In cases where the College is appointed Trustee of a charitable trust, the investment objective is to achieve a return that satisfies the distribution rate while retaining as much of the corpus as possible.

15.0060 SPENDING POLICY

The College will distribute no more than 5% of the 5 year rolling average of the market value of the Pooled Long-Term Fund and the Pooled Equity Fund. The College will distribute from the Pooled Fixed Income Fund net income. The College will distribute the contractual rate specified within the annuity or charitable trust agreements.

15.0070 INVESTMENT STRATEGY

Endowment assets will be invested in the College's Pooled Long-Term Fund, Pooled Equity Fund, and Pooled Fixed Income Fund. Charitable trusts may be funded with cash, securities, real estate, or other property and will be reinvested in the Equity Trust Investment Pool, Bond Trust Investment Pool, individual securities, or any combination of the three, as soon as practical. Each Fund will be broadly diversified through investment in multiple markets and use of multiple investment styles, thus enhancing real returns while reducing volatility. In addition, diversification will provide assurance that no single security or class of security will have a disproportionate impact on the fund's aggregate results.

The appropriate asset allocation for each charitable trust depends upon the expected life of the trust, the contractual distribution rate and the circumstances of the expected life of the trust, the

contractual distribution rate, and the circumstances of the beneficiaries. The BOD reviews each trust asset allocation annually.

15.0080 SPECIFIC INVESTMENT GOALS

- .01 Specific investment decisions will be the responsibility of the internal and external investment managers selected by the BOD and will from time-to time develop specific performance objectives and investment guidelines for each manager employed, and shall periodically review each manager.
- .02 Over the 10-year investment horizon established in this statement, it is the goal of the aggregate College assets to meet or exceed:
 - The rate of inflation (as measured by the CPI) plus 3%.
- .03 The investment goals above are the objectives of the aggregate College assets, and are not meant to be imposed on each investment account. The goal of each investment manager, over the investment horizon, shall be to:
 - Exceed the market index, or blended market index, selected and agreed upon by the Investment Committee that most closely corresponds to the style of investment management.
 - Display an overall level of risk in the portfolio that is consistent with the risk associated with the volatility limits specified below.
- .04 Specific investment goals and constraints for each investment manager may differ from those of the entire College.

15.0090 TOTAL COLLEGE ASSET ALLOCATION GUIDELINES

- Asset Class Minimum Maximum
- Cash Equivalents 0% 10%
- Fixed Income 30% 75%
- Bonds below Investment grade – BBB 0% 10% of total
- International Bonds 0% 10% of total
- Total Equities 25% 70%

- Small Cap 0% 20%

- Alternative Investments (including REITS & Commodities) 0% 20% of total

15.0100 VOLATILITY OF RETURNS

The Investment Committee understands that in order to achieve its objectives for the College assets, the assets will experience volatility of returns and fluctuations of market value. The College could tolerate a maximum loss of approximately 20% over the 1-year investment horizon and maximum loss of 0% over a 5-year period. Therefore, the Investment Committee supports an investment strategy that minimizes the probability of losses greater than stated above. However, it realizes that the College's return objective is its primary concern. There is, of course, no guarantee that the College will not sustain losses greater than those stated herein.

15.0110 PERFORMANCE REVIEW EVALUATION

- .01 The Investment Committee will establish specific performance objectives and provide for monitoring the investment performance of the manager's employed to manage the College assets. On a quarterly basis, the Committee will receive a report from each manager regarding investment performance relative to the performance objective, risk guidelines, the manager's stated investment philosophy, and the manager's peer group. For purposes of reviewing performance, it is intended that the following objectives be achieved over a 5-year moving period, net of investment management fees.
- .02 Asset Allocation Guidelines: The long-term goal of this portfolio is to maintain a portfolio mix of 50% Equities and 50% Fixed Income +/- 10%. Once the strategic asset allocation has been obtained, the account will be periodically re-balanced to maintain the target percentages.

15.0120 POOLED EQUITY FUND

- .01 The total return of the actively managed funds in our portfolio is expected to exceed the target Index comprised of:
 - Guidelines for measuring performance
 - Performance Relative to Peer Group
 - Standard Deviation
 - Manager Tenure
 - o Large Cap Equity – Russell 1000 Index
 - o Mid Cap Equity – 400 Midcap 400 Index
 - o Small Cap Equity – Russell 2000 Index
 - o International Equity Developed – MSCI EAFE Index
 - o International Equity-Developing – MSCI Emerging Market Index
 - o Alternative Investments Index – HFRI Fund of Funds Index
- .02 The total return for each Passive/ETF in our portfolio is expected to keep pace with the benchmark or which it follows. The goal with our passive investments is to work with funds that are keeping their expense low relative to their peer group but also have a mandate to reset their allocations to not get to cap weighted to one particular stock.
- .03 Each active equity investment manager is expected to rank in the top 40% of a universe of advisors utilizing a similar investment style (e.g. Large-Cap Value, Small-Cap Growth, International, etc.) over a rolling five-year period.

15.0130 POOLED FIXED INCOME FUND

- .01 The total return for the Pooled Fixed Income Fund and any fixed income investment manager is expected to exceed their relevant benchmark.
- .02 Each fixed income investment manager is expected to rank in the top 40% of the fixed income advisors over a rolling five-year period.

15.0140 TERMINATION OF INVESTMENT MANAGER

The BOD reserves the right to terminate a manager for the following reasons:

- .01 Investment performance that is significantly less than expected given the parameters established in this Investment Policy Statement.
- .02 Failure to adhere to any aspect of this Investment Policy Statement.
- .03 Significant qualitative changes to the investment management organization.
- .04 At the convenience of the BOD, with or without cause.

SECTION 5 PERSONNEL POLICY AND PROCEDURES

4.0080 PAY DEDUCTIONS – FLSA SAFE HARBOR

The employer takes all reasonable steps to assure that employees receive the correct amount of pay in each paycheck and that employees are paid promptly on the scheduled payday. Any deductions to an employee's salary are to be in compliance with the Fair Labor Standards Act (FLSA). The employer prohibits improper pay deductions as identified in [29 CFR 541.602](#).

Exempt employees are paid on a salary, because they are expected to work as many hours as needed to perform the work required. Because of this expectation, an exempt employee's salary is not subject to reduction because of variations in the quality or quantity of the work performed. Exempt employees will receive their full salary for any week in which they perform any work, without regard to the number of days or hours worked. However, exempt employees may not be paid for any workweek in which they perform no work and are not using accrued leave time.

Deductions from the pay for **exempt employees** are permissible under the following circumstances:

- .05 Deductions from pay may be made for a partial week worked during the initial week or the final week of employment.
- .06 Deductions from pay may be made when the employee has authorized in writing the deduction.
- .07 In the unlikely event, that there is an error in the amount paid or an improper deduction against salary, the employee shall promptly notify his/her supervisor so that the correction can be made as quickly as possible.
- .08 Once underpayments or improper deductions are identified, they will be corrected as soon as possible, but no later than the next regular paycheck. Overpayments will also be corrected in the next regular paycheck unless this presents a burden to the employee. In that case, the employer will attempt to arrange a schedule of repayments with the employee. Should employment be terminated while monies are still owed to the employer, such monies will be treated as an unearned advance of wages and withheld from the employee's final paycheck.

5.0040 CODE OF CONDUCT INTRODUCTION

The Turtle Mountain Community College (TMCC) is committed to ethical and professional conduct. The College's leadership expects that each individual performing any activities on behalf of the College will adhere to those standards in the performance of their duties.

It is the responsibility of each individual BOT, BOD, faculty, staff member, or student employee acting on behalf of the College to comply with legal and regulatory requirements, policies, and procedures that apply to their particular duties. In addition, it is the responsibility of supervisors to adequately train individuals and to monitor their compliance.

There may be instances when a policy or regulation appears difficult to interpret or to apply, in those cases, clarification should be sought through the normal supervisory channels. If necessary, further questions should be directed to the administrative office that has responsibility for the oversight of that policy.

To maintain the highest standards of business conduct, the College depends on each individual to report known or suspected violations relative to the business of the College. Violations may include but are not limited to such subjects as: applicable federal, state, and tribal laws; regulations; government contract and grant requirements; College policies and procedures; or this Code of Conduct. Failure to report known or suspected violations is in itself a breach of College ethical standards and can lead to discipline, up to and including separation from the College. In addition, making an intentionally false report of a violation will result in disciplinary action.

Individuals should understand that the College expects reporting of violations and makes available numerous options for reporting. Individuals must report violations to their immediate supervisor, and/or administration. College policy states that all reports will be investigated.

Reports of suspected violations may be made confidentially. The more information given, the easier it is to investigate the suspected violation. The College will take all appropriate steps to ensure the level of confidentiality desired; however, sometimes the College's legal obligations to investigate or address a violation will override the individual's wish for confidentiality.

SECTION 5 PERSONNEL POLICY AND PROCEDURES

In addition to this Code of Conduct, there are multiple College policies and procedures that apply to individuals at the College, which also expects reporting. They can be found on the college website, student handbook and in the catalog.

In some circumstances, individuals may be subject to civil and criminal charges and penalties.

Administration shall reserve the right to make inquiry into any employee's connection with any group or organization which advocates the overthrow of the local or U.S. Government by force of violence.

The College prohibits retaliation against those who participate in reporting or investigating conduct contrary to law and policy. Further, College policies and grievance procedures also prohibit retaliation.

Each new employee will review the College's Code of Conduct and sign a statement certifying that the employee has read and agrees to comply with the Code.

The absence of, or lack of explicit reference to a specific site does not limit the extent of the application of this policy. Where no policy or guideline exists, employees should use their professional judgment and take the most prudent action possible. Consult with your supervisor if you are uncertain.

The following principles apply to professional use of social media on behalf of TMCC as well as personal use of social media when referencing TMCC.

5.8.0000 FACULTY APPOINTMENTS

8.0010 PROCEDURE

The procedure leading to appointment of a faculty member under Employee Categories.

8.0020 QUALIFIED FACULTY

Qualifications for Instructional Staff

Philosophy:

Turtle Mountain Community College is a tribal community college with obligations of direct community service to the Turtle Mountain Chippewa Tribe. Under this unifying principle, the college seeks to maintain, seek out, and provide comprehensive higher education services in fields needed for true Indian self-determination.

Procedure:

This procedure applies to hiring of all faculty at Turtle Mountain Community College (TMCC). It is the responsibility of the prospective faculty member to provide all documentation needed to verify their credentials. This includes, but is not limited to, a resume/curriculum vita, all college transcripts, appropriate licenses or certifications, and required justification for alternative credentialing. The cost to obtain official transcripts (including necessary translations and evaluations of foreign transcripts) and copies of licenses and certifications is borne by the prospective faculty member. The hiring process

SECTION 5 PERSONNEL POLICY AND PROCEDURES

will be followed per TMCC policy, and hiring recommendations will be forwarded from the hiring committee to the President for approval and the BOD for concurrence.

The TMCC Human Resources department will maintain appropriate credentialing documentation, including records of exceptions, on all faculty who are assigned to teach credit-based college courses. For all cases, the institution is responsible for justifying and documenting the qualifications of its entire faculty. TMCC may periodically request updated documents from faculty members to maintain the personnel file. Faculty will be responsible for updating their individual personnel file, recording these qualifications.

Definitions:

Determination by Credentials – Faculty credentials generally refer to the degree that faculty have earned which provides a foundation for knowing what students will learn in a specific discipline or field. Because of the distinctive cultural mission of TMCC and because other institutions from whom the faculty may have received degrees vary widely in interdisciplinary and cross-disciplinary nature of many academic programs, as well as tested experience, TMCC reserves the right to:

- .01 Recognize as qualified our present faculty whose specific discipline and subfield preparations have been adjudged to meet the qualifications required to teach courses they are presently teaching and those they have been assigned to teach in the past. The personnel file will record the data and decision-making in relation to these factors.
- .02 TMCC will use a procedure to select and employ new faculty whose specific discipline and subfield preparations have been adjudged, in light of the above elements of discipline and tested experience, to meet the qualifications required to teach courses as follows:
 - 1) Faculty should have completed a program of study from an accredited institution of higher learning in the discipline or subfield in which they teach, with coursework at least one level above that of the courses being taught.
 - a. Those teaching general education courses, and/or other courses that transfer typically hold a master's degree or higher in the discipline or subfield. If a faculty member holds a master's degree or higher in the discipline or subfield other than that in which they are teaching, that faculty member should have completed a minimum of 18 graduate credit hours in the discipline or subfield. This is the minimum threshold for educational credentialing requirements.
 - b. Faculty teaching developmental courses must have a minimum of a baccalaureate degree in the discipline or related field.
 - c. All Career and Technical Education faculty are expected to meet the North Dakota Career and Technical Education requirements.

Determination by Factors other than Credentials – Qualified faculty are identified primarily by credentials, but other factors may be considered.

- .01 Besides credentials, other attributes may be necessary to qualify someone to teach, such as the ability to design curricula, develop and implement effective pedagogy/andragogy.
- .02 In some cases, such as practice-oriented disciplines or programs, tested experience in the field may be needed as much as formal education preparation at the prescribed level.

Tested Experience – Tested experience implies that some objective measure ensures that the individual knowledge and expertise are sufficient for determining what students will learn and have learned.

SECTION 5 PERSONNEL POLICY AND PROCEDURES

Alternative credentials ensure that faculty members have experience that clearly contributes to student learning outcomes and can be considered in lieu of formal academic preparation. This may be particularly true in the areas of Ojibwa and/or Mitchif Language and Native American Studies. In these cases, the applicant may present a portfolio that documents such experience. TMCC also considers competence in field, national accreditation, professional licensure, and/or certificates, honors and awards, continuous documented excellence in teaching, published work, community service, fellowship, field work, or other demonstrated competencies and achievements that contribute to effective teaching and student learning outcomes (See Qualified Faculty Certification of Credentials form).

Emerging Fields – Exceptions may be made in instances where the program area is so new that the educational preparation requirements and the occupational experience requirements are not yet clearly defined. This exception shall terminate when the system minimum qualifications are established.

Tuition Assistance

- .01 TMCC will pay for the tuition, mandatory fees, course fees and books for full time faculty for graduate courses taken in accordance with the approved Qualification Plan.
 - 1) Such payment will not exceed \$400 per credit, not to exceed 8 credits per semester, and not to exceed 2 years or 6 semesters (including summer).
- .02 In the event the course is not completed with a grade of “C” or higher, the course is dropped, or the faculty member is otherwise withdrawn, the faculty member will be ineligible for tuition assistance for the next course taken pursuant to the approved qualifications plan. Extenuating circumstances may be considered on an individual basis.
 - 1) If timelines for meeting TMCC degree requirements are not met as required, employment actions including non-renewal of appointment, course reassignments, or termination of employment may occur.
- .03 Tuition assistance will not be provided when other funds are available to pay the tuition, mandatory fees, course fees, and/or books. Examples of other funds that could be available include scholarships, tuition waivers, grants, public tuition payment programs (e.g. GI Bill, Military TA) or other public or private third party payments.
- .04 Should the President of TMCC declare an institutional financial hardship, the tuition assistance and funding outlined in this policy may be withdrawn.
- .05 A contract will be signed between faculty person and TMCC President. Repayment is one semester for one semester.

8.0030 TERMS OF EMPLOYMENT

The general terms and conditions of employment of the faculty will be stated in writing, and a copy of the employment contract will be supplied to the faculty member upon request. Any subsequent extensions or modifications of the employment and any special understanding or any notices incumbent upon either party shall be confirmed in writing and a copy given to the faculty member. Each faculty member will be advised at the time of initial employment of the institutional process for evaluation of faculty. This may be accomplished by a published description of the process in this manual.

Faculty contracts will be issued by April 15 of each year, with signed contracts returned to the Human Resource office by May 15 of each year. Contracts not returned will relieve the institution of any obligation to re-appoint the faculty member.

SECTION 5 PERSONNEL POLICY AND PROCEDURES

8.0025 ACADEMIC FREEDOM

The primary responsibilities of this academic community are to provide for the enrichment of intellectual experience, to promote life-long learning, to serve the tribal community, and to integrate Indian culture into the learning environment. Essential to the realization of these ideals is a free and open academic community, which takes no ideological, or policy position. Conflict of ideas cannot occur unless there is opportunity for a variety of viewpoints to be expressed. Toleration of what may be error is an inescapable condition of the meaningful pursuit of truth. The academic community must be hospitable even to closed minds and it must welcome the conflict of ideas likely to ensue. Academic responsibility to provide opportunity for expression of diverse points of view generates academic freedom.

- .01 The instructor is entitled to full freedom in lecturing or conducting demonstrations in their subject or field of competence. They are entitled like any other member of the community in which they live to establish membership in voluntary groups, to seek or hold public office, to express their opinions as an individual on public questions and to take action in accordance with their views. Cognizant of their responsibilities to their profession and to their institution, the instructor accepts certain obligations: they respect the rights of others to express opinions, and to insure that their personal views do not interfere with the unfettered search for truth by students and colleagues.
- .02 They must make clear, however, that their actions, statements, and memberships do not necessarily represent the views of the academic community. If there are controls to be exercised over the instructor, they are the controls of personal integrity and the judgment of their colleagues. .07 MILITARY LEAVE

The Uniformed Services Employment and Reemployment Rights Act ([USERRA](#)) enacted in 1994 covers all civilian employers and prohibit employment discrimination against members of the “Uniformed Services.” The term Uniformed Services means the Armed Forces, the Army National Guard and the Air National Guard when engaged in active duty for training, inactive duty training, or full-time National Guard duty, the commissioned corps of the Public Health Services, and any other category of persons designated by the President in time of war or emergency.

1. In response to national, tribal or local emergency declared by the Turtle Mountain Band of Chippewa Indians, the State of North Dakota, or the U.S. government, the President of Turtle Mountain Community College (“College”) is authorized to grant Emergency Administrative Leave, including Paid Administrative Leave, to College Employees when:
 - A. The President has determined such Leave is necessary to protect:
 - i. the health and safety of College employees;
 - ii. the health and safety of College students; or
 - iii. the public health and safety of the communities served by the College; and
 - B. The period for which the Emergency Administrative Leave is granted is the minimum amount of time necessary to achieve the interests set forth in this policy, based upon the facts known at the time the leave is authorized; and
 - C. There are no other effective alternatives available such as authorizing work from home or altering the location of work for the employees who are granted Emergency Administrative Leave.
2. Prior to making a determination under subsection 1, the President shall ensure that:
 - A. The College has in place an established written leave policy that allows for Paid Emergency Administrative Leave (e.g., this section)
 - B. The costs of such leave are equitably allocated to all related activities, including Federal awards; and

SECTION 5 PERSONNEL POLICY AND PROCEDURES

- C. The accounting basis (cash or accrual) selected for costing each type of leave is consistently followed by the non–Federal entity or specified grouping of employees³
3. The President will issue written notification to affected employees specifying:
 - A. The employees granted Emergency Administrative Leave by class or title;
 - B. The basis for granting Emergency Administrative Leave under this Policy;
 - C. The duration of the Emergency Administrative Leave.
4. The President has the authority to enact intermittent or ongoing, as relevant, Emergency Administrative Leave to all or classes of employees in response to any pandemic that requires social distancing as a mechanism to prevent the spread of a virus.
5. The President shall notify the TMCC BOD in writing within 48 hours when any Emergency Administrative Leave has been granted. Such notification shall include assurances that the College is in compliance with subsection B, above.
6. This policy is based on and consistent with the following federal regulation: **2 CFR 200.431(a)**.

5.17.0000 FAMILY AND MEDICAL LEAVE ACT

The Family and Medical Leave Act (FMLA) entitles eligible employees to take unpaid job-protected leave, with continuation of group health insurance coverage under the same terms and conditions as if the employee had not taken leave. When the employee returns to work from FMLA leave, the employee will be restored to the same job or similar job with virtually identical pay, benefits and other conditions of employment.

Eligible employees can take up to 12 weeks of unpaid job-protected leave in a 12-month period for childbirth, adoption or foster care placement; for employee's own serious health condition or to care for employee's immediate family member who has a serious health condition; or any "qualifying exigency" arising out of the deployment to a foreign country of employee's spouse, child or parent who is in the Regular Armed Forces or National Guard or Reserves. Eligible employees may also take up to 26 weeks of job-protected leave in a single 12-month period to care for a covered service member with a serious injury or illness from the line of duty or active duty. The purpose of this policy is to identify the eligibility and leave requirements under the FMLA.

Employee Eligibility – To be eligible for FMLA benefits, an employee **must**:

- Work for the covered employer
- Have been employed with employer for at least 12 months

³According to federal regulation, when a non–Federal entity uses the cash basis of accounting, the cost of leave is recognized in the period that the leave is taken and paid for. Payments for unused leave when an employee retires or terminates employment are allowable in the year of payment. Further, the accrual basis may be only used for those types of leave for which a liability as defined by GAAP exists when the leave is earned. When a non–Federal entity uses the accrual basis of accounting, allowable leave costs are the lesser of the amount accrued or funded.

SECTION 5 PERSONNEL POLICY AND PROCEDURES

- Have worked at least 1,250 hours with the employer during the 12 months period immediately preceding the leave: and
- Work at a location for the employer where at least 50 employees are employed within 75 miles.
- The 12 months of employment do not have to be consecutive. That means any time previously worked for the employer (including seasonal work) could, in most cases, be used to meet the 12-month requirement. If the employee has a break in service that lasted seven years or more, the time worked prior to the break will not count unless the break is due to service covered by the Uniformed Services Employment and Reemployment Act (USERRA), or there is a written agreement, including a collective bargaining agreement, outlining the employer's intention to rehire the employee after the break in service.

LEAVE ENTITLEMENT

17.0010 FAMILY AND MEDICAL LEAVE

TMCC will provide up to 12 work weeks of unpaid family and medical leave during a 12-month period to an eligible employee who is temporarily unable to work for one or more of the following reasons:

- For the birth and care of a newborn child of the employee;
- For placement with the employee of a child for adoption or foster care;
- To care for a spouse, son, daughter or parent of the employee who has a serious health condition;
- For a serious health condition that makes the employee unable to perform the essential functions of his or her job; or
- For any qualifying exigency arising out of the fact that a spouse, son, daughter or parent is a military member on covered active duty or call to covered active duty status.

An employee's spouse, children and parents are immediate family members for purpose of the above family and medical leave. The term "parent" does not include a parent "in-law". The term "**child**" or "**son or daughter**" does not include individuals age 18 or over unless they are "incapable of self-care" because of a mental or physical disability. **Child** includes biological, adopted, foster, stepchild, legal ward or child in which the employee has assumed the parental obligations but has not legal or biological connections to child.

17.0020 MILITARY FAMILY LEAVE

The military family leave provisions of the FMLA entitle eligible employees of covered employers to take FMLA leave for any "qualifying exigency" arising from the foreign deployment of the employee's spouse, son, daughter, or parent with the Armed Forces, or to care for a service member with a serious injury or illness if the employee is the service member's spouse, son, daughter, parent or next of kin. Eligible employees are granted up to **12 workweeks** of unpaid, job-protected leave during any 12-month period for qualifying exigencies that arise when the employee's spouse, son, daughter or parents is on covered active duty or has been notified of an impending call or order to covered active duty. **Covered active duty** means members of the Regular Armed Forces, duty during deployment of the member with the Armed Forces to a foreign country; or members of the Reserve components of the Armed Forces (members of the National Guard and Reserves) duty during deployment of the member with the Armed Forces to a foreign country under call or order to active duty in support of a contingency operation. Qualifying exigencies for which an employee may take FMLA leave include making alternative child care arrangements for a child of the deployed military member, attending certain military ceremonies and briefings, or making financial or legal arrangements to address the military member's absence.

SECTION 5 PERSONNEL POLICY AND PROCEDURES

17.0030 MILITARY CAREGIVER LEAVE

Employer will provide up to 26 workweeks of unpaid military caregiver live during a “single 12-month period” to an eligible employee who is a spouse, child, parent or next of kin of a “covered service member” with a serious injury or illness to care for the recovering service member. **“Serious injury or illness”** is one that was incurred by a service member in the line of duty on active duty that may render the service member medically unfit to perform the duties of his or her office, grade, rank, or rating. **“Single 12-month period”** for military caregiver leave begins on the first day the employee takes leave to care for a covered service member with a serious injury or illness and ends 12 months later, regardless of the 12 month period established by the employer for other types of FMLA leave.

Unless otherwise indicated in this policy, the 12-month period is calculated as identified on the Notice of Eligibility and Rights and Responsibilities form (Form WH-381) which Employer will provide to FMLA eligible employee within 5 days of employee notice of FMLA leave. Additional information on the FMLA is available at www.dol.gov/whd/fmla.

17.0040 SERIOUS HEALTH CONDITION

A **“serious health condition”** is an illness, injury, impairment or physical or mental condition that involves inpatient care or continuing treatment by a health care provider. Some common serious health conditions that qualify for FMLA leave include conditions requiring an overnight stay in a hospital or other medical care facility; conditions that incapacitate for more than three consecutive days and require ongoing medical treatment (either multiple appointments with a health care provider, or a single appointment and follow-up care such as prescription medication); chronic conditions that cause occasional periods when the employee is incapacitated and that require treatment by a health care provider at least twice a year; and pregnancy (including prenatal medical appointments, incapacity due to morning sickness, and medically required bed rest). An employee is unable to perform the functions of the position where the health care provider finds that the employee is unable to work at all or is unable to perform any one of the essential functions of his/her position. An employee who must be absent from work to receive medical treatment for a serious health condition is considered to be unable to perform the essential functions of the position during the absence for treatment.

Some common serious health conditions that qualify for FMLA leave to care for a family member include conditions requiring an overnight state in a hospital or other medical care facility; chronic conditions that cause occasional periods when the family member is incapacitated and that require treatment by a health care provider at least twice a year; and long-term or permanent conditions where treatment may not be effective but the family member is under the continuing supervision of a health care provider.

17.0050 LEAVE LIMITATIONS

- .01 An eligible employee is limited to a **combined total of 26 work weeks** of leave for any FMLA qualifying reason during the “single 12-month period”. Only 12 of the 26 weeks may be for a FMLA-qualifying reason other than to care for a covered service member.
- .02 Spouses employed by the same employer are limited in the amount of family leave they may take for the birth and care of a newborn child, placement of a child for adoption or foster care, or to care for a parent who has a serious health condition to a **combined total of 12 weeks** (or 26 weeks of leave to care for a covered service member with a serious injury or illness is also used).
- .03 Any other leave available to the employee (such as paid time off, vacation, sick, disability, or any leave under federal, state or local law) runs concurrently with the family and medical leave and the military leave so that the employee has a maximum of twelve (12) work weeks of leave in a 12-month period (or 26 weeks of leave to care for a covered service member with a serious injury or illness).
- .04 Leave will be unpaid, except if the employee has available accrued paid leave under TMCC’s policy (e.g. annual leave, sick leave), then the employee must take any available leave prior to receiving unpaid leave.

SECTION 5 PERSONNEL POLICY AND PROCEDURES

In addition, if the employee has accrued annual leave, then the employee must take any available annual leave prior to receiving unpaid leave.

- .05 FMLA leave taken due to the birth of a child or placement of a child for adoption or foster care must be concluded within 12 months after the birth or placement and must be taken in consecutive days.
- .06 FMLA leave taken to care for a spouse, child or parent, or because of the employee's own serious health condition may be **taken intermittently** or on a reduced leave schedule if such intermittent or reduced schedule leave is medically necessary.
- .07 FMLA leave may be **taken intermittently** whenever medically necessary to care for a covered service member with a serious injury or illness. FMLA leave also may be taken intermittently for a qualifying exigency arising out of the active duty status or call to active duty of a covered military member.
- .08 When leave is needed for planned medical treatment, the employee must make a reasonable effort to schedule treatment so as not to unduly disrupt the employer's operation.

17.0060 HOW TO REQUEST FMLA LEAVE

- .01 Notice:
 - 1) Employees seeking to use FMLA leave are required to provide 30-day advance notice of the need to take FMLA leave when the need is foreseeable and such notice is practicable. If leave is foreseeable less than 30 days in advance, the employee must provide notice as soon as possible – generally, the same or next business day. When the need for leave is not foreseeable, the employee must provide notice to the employer as soon as practicable under the facts and circumstances of the particular case. Absent unusual circumstances, employees must comply with the employer's usual and customary notice and procedure requirements for taking leave.
 - 2) The employee must also notify their supervisor and make a reasonable effort to schedule the leave so as not to disrupt the Company's business operations. Failure to give required advance notice when such leave is foreseeable may in denial of the requested leave until the required notice period is satisfied.
 - 3) Within five business days of the employee notice of the need for FMLA leave, Human Resources will provide employee with the Notice of Eligibility and Rights & Responsibilities and whether employee is eligible for FMLA. Employees must provide sufficient information for an employer to reasonably determine whether the FMLA may apply to the leave request. When an employee requests leave for a FMLA-qualifying reason for which the employer has previously provided the employee FMLA leave, the employee **must** specifically inform the employer of the qualifying reason for FMLA leave or the need for FMLA leave. If employee is determined to not be eligible for FMLA, employee will be provided with reason why.
- .02 Certification Requirements:
 - 1) Medical Certification: TMCC may require medical certification to support a request for leave because of a serious health condition, and may require second and third opinions (at TMCC's expense) and periodic recertification of a serious health condition. An employee requesting FMLA leave to care for a spouse, child or parent or due to his or her own serious health condition must present TMCC with a medical certification completed by a health care provider, summarizing the serious health condition and its probable duration. The Medical Certification form may be obtained from Human Resources and must be returned within 15 days of receipt of the form. A medical certification is not required or requested for leave to bond with a newborn child or a child placed for adoption or foster care. Periodic reports may be required from the employee regarding the employee's status and intent to return to work. Before returning to work, an employee who is entitled to a leave due to the employee's serious health condition must provide a certification from his/her health care provider that he/she is able to resume work. If reasonable safety concerns exist, TMCC may require a certificate for

SECTION 5 PERSONNEL POLICY AND PROCEDURES

employees returning from intermittent FMLA leave. The Medical Certification forms may be obtained from Human Resources.

- 2) **Military Certification:** An employee's request for military family leave must be supported by the appropriate Certification for Military Family Leave. The Certification forms may be obtained through Human Resources. In addition, leave for a qualifying exigency must be supported by a copy of the covered military member's active duty orders. Leave to care for a covered service member with a serious injury or illness must be supported by a certification completed by an authorized health care provider **or** by a copy of an Invitational Travel Order (ITO) or Invitational Travel Authorization (ITA) issued to any member of the covered service member's family.
- 3) **Fitness for Duty:** In general, a fitness-for-duty certification may not be required for each absence taken on an intermittent or reduced leave schedule. However, if TMCC has a reasonable belief that the employee's return to work presents a significant risk of harm to the employee or others, TMCC may require a fitness for duty certification up to once every 30 days. As long as TMCC has provided the required notice regarding any fitness-for-duty certification requirement, the employee's return to work may be delayed until the fitness-for-duty certification is provided. TMCC may contact an employee's health care provider to clarify or authenticate a fitness-for-duty certification, but cannot delay the employee's return to work while making that contact. TMCC may not require second or third opinions for a fitness-for-duty certification. The employee is responsible for paying any cost of obtaining the fitness-for-duty certification.

17.0070 MAINTENANCE OF HEALTH BENEFITS

TMCC will maintain the employee's health coverage but the employee is responsible for his/her portion of the premium. Any share of group health plan premiums which had been paid by the employee prior to FMLA leave must continue to be paid by the employee during the FMLA period. If applicable, arrangements will need to be made for the employee to pay his/her share of health insurance premiums while on leave.

An employee on unpaid FMLA leave must make arrangements to pay the normal employee portion of the insurance premiums in order to maintain insurance coverage. If the employee's premium payment is more than 30 days late, the employee's coverage may be dropped. TMCC must provide written notice to the employee that the payment has not been received and allow at least 15 days after date of notice before coverage may stop. Coverage for the employee may be terminated at the end of the 30-day grace period, where the required 15-day notice has been provided.

If the employee fails to return to work after the expiration of the leave, the employee will be required to reimburse TMCC for payment of health insurance premiums during the family leave, unless the employee does not return because of circumstances beyond the employee's control.

17.0080 RESTORATION OF EMPLOYMENT

Upon return from FMLA leave, an employee will be restored to their original or equivalent position with equivalent pay, benefits and other employment terms. A determination as to whether a position is equivalent will be made by TMCC. Employees, while on leave, shall retain their years' service rights and accumulated benefits, but shall not accrue additional benefits while absent. An employee has no greater right to restoration or to other benefits and conditions of employment than if the employee had been continuously employed.

An employee on FMLA leave is not protected from actions that would have affected him or her if the employee was not on FMLA leave. For example, if a shift has been eliminated or overtime has been decreased, an employee would not be entitled to return to work that shift or the original overtime hours. If an employee is laid off during the

SECTION 5 PERSONNEL POLICY AND PROCEDURES

period of FMLA leave or position was eliminated, TMCC must be able to show that the employee would not have been employed at the time of reinstatement.

TMCC may also deny restoration to a “key” employee under certain circumstances. A key employee is a salaried, FMLA-eligible employee who is among the highest-paid 10% of all TMCC’s employees within 75 miles. To deny restoration to a key employee, TMCC must have determined that substantial and grievous economic injury to its operations would result from the restoration, must have provided notice to the employee that he or she is a key employee and that restoration will be denied, and must provide the employee a reasonable opportunity to return to work.

17.0090 FAILURE TO RETURN FROM LEAVE

Employees who fail to return from leave on the agreed upon date, will be presumed to have resigned his or her employment. It is important for employees on FMLA leave to timely communicate with TMCC and update TMCC on any changes in the FMLA leave affecting employees return to work date.

Further information regarding this policy can be obtained from Human Resources and the D.O.L. website at <http://www.dol.gov/whd/fmla/>.

Job abandonment occurs when an employee has not contacted their supervisor and has not reported to their scheduled work shift for three consecutive days without approval. The College will notify the employee, in writing by certified mail that the employee's failure to report to work or to contact the employer constitutes job abandonment and termination is effective the last day worked.

Based upon need and work to be performed, the supervisor shall provide a recommendation for the position(s) subject to reduction in force. In determining which employees shall be affected, the department shall consider the following:

- .01 An analysis of the acquired knowledge, demonstrated skills, and versatility of its employees compared to the work to be done and the available funding.
- .02 An analysis of the level of demonstrated work performance.
- .03 A review of the length of service of its employees.

The department shall maintain written documentation of the required analysis and review.

SECTION 5 PERSONNEL POLICY AND PROCEDURES

The President reviews the recommendation of the dismissal/termination and completes a formal investigation. Upon finding the recommendation for dismissal/termination is justified, the President will issue a letter of dismissal/termination to employee. The letter will state the reasons for dismissal/termination and the process to grieve. The Human Resource Manager will be notified and will inform the Comptroller.
- 5) In cases of dismissal/termination not based on job performance, and written recommendation to the President is by someone other than the Supervisor, the President reviews the recommendation of the dismissal/termination and makes a formal investigation. Upon finding the recommendation for dismissal/termination is justified, the President will issue a letter of dismissal/termination to employee. The letter will state the reasons for dismissal/termination and the process to grieve. The Human Resource Manager will be notified and will inform the Comptroller.

.02 Any employee who disputes or wants to grieve a disciplinary action, see Section [5.24.0000](#), Grievances.

5.24.0000 GRIEVANCES

24.0010 DEFINITION AND EXCLUSIONS

The grievance process begins when an employee, Director, or Trustee presents in writing an allegation that there has been a violation, misinterpretation or misapplication of a policy, procedure, or practice

SECTION 5 PERSONNEL POLICY AND PROCEDURES

regarding the employee's employment conditions, dismissal, change to a lower pay rate, suspension without pay, reduction-in-force and issues of illegal discrimination cannot be grieved pursuant to this section. The College has the discretion to determine whether a written grievance is applicable under this policy.

24.0020 GRIEVANCE PROCESS

The employee and supervisor along with the Human Resource Manager or designee, if needed, will attempt to resolve the issue of the employee prior to filing a grievance. Timelines are critical and must be adhered to.

The following process will be adhered to when filing a grievance:

- .01 Any employee who believes that they have a justifiable grievance must first discuss the grievance with his/her immediate supervisor. The grievance must be presented in written form, time and date stamped with documentation. The written grievance must state specifically what action or policy has been violated or is in question, and any other specific facts which the employee believes are relevant to the action. The employee must also state what resolution they are seeking. The supervisor shall give the aggrieved a written response within ten (10) working days.
- .02 If the response is unsatisfactory to the employee or the grievance cannot be resolved at the first level, the employee may file a written grievance to the Human Resource Manager within ten (10) working days of the receipt of the response from the supervisor. The Human Resource Manager will schedule a hearing with the Grievance Committee within ten (10) working days of the receipt of the written grievance. The written grievance shall include the following information:
 - The basis for the grievance,
 - The efforts made to resolve the grievance,
 - The issues to be heard by the Grievance Committee,
 - All persons or entities that may be called as witnesses, and
 - The relief/remedy sought by the employee.
- .03 The Grievance Committee will meet within ten (10) working days with the employee and the supervisor to hear both sides of the grievance. The Grievance Committee will be designated by the president. These five (5) selected representatives must:
 - Work outside the aggrieved employee's department,
 - Not have been previously involved with the issue grieved,
 - Not be related to or have a close personal or professional relationship with any of the essential parties involved in the grievance, and
 - Not have any conflict of interest which would interfere with their ability to be fair and impartial.

The Human Resource Manager will chair the hearing, but will not vote on the grievance. The Grievance Committee will hear and review all aspects of the issue. They will determine correctness of policy interpretation along with fairness and logic of decisions previously reached. The Grievance Committee may render their decision immediately or may take grievance under advisement for consideration, and may consult College authorities or experts for advice. A written decision will be made within ten (10) working days to be shared with the President. All parties will be sent a written reply of the decision.

SECTION 5 PERSONNEL POLICY AND PROCEDURES

Recommendations of decisions by the Grievance Committee will be forwarded to the President for final concurrence; once concurred the decision is binding and final. Any attempt to influence or contact members of the Grievance Committee is a violation and may constitute reason to terminate the grievance process.

24.0030 GRIEVANCE AGAINST THE PRESIDENT

Grievance against the President will be heard by the College BOD. The grievance to be considered valid must clearly state grievance being grieved with evidence and specifies what resolution is sought. The BOD will serve as the Grievance Committee. 5.25.0000 DRUG AND ALCOHOL TESTING POLICY

Turtle Mountain Community College has in place a drug and alcohol drug testing policy which can be found in [Appendix A5-4](#).

5.26.0000 EMPLOYEE ASSISTANCE PROGRAM

The Employee Assistance Program has been designed to assist employees and family members in prevention, assessment, education, and rehabilitation of problems that affect job performance. TMCC will contract with an outside organization to provide employee assistance counseling.

26.0010 RESPONSIBILITY

- .01 The College will provide employees with adequate information on the Employee Assistance Program by providing training to supervisors on referring individuals to the EAP, and continually update employees on various educational initiatives available.
- .02 Supervisor responsibilities in EAP: The following information should be used as a general guideline for dealing with performance problems and for making an administrative referral to the EAP:
 - 1) Observe. Changes in employee behavior can signify that individuals have personal concerns that are interfering with their work performance.
 - 2) Document. The supervisor needs to document observable, verifiable facts. Complete and accurate documentation is essential when dealing with employee performance problems.
 - 3) Prepare. When supervisors have observed deteriorating performance or unfavorable changes in personal or work patterns, their options to assist an employee include, discussing performance difficulties with the individual before the difficulties become

SECTION 5 PERSONNEL POLICY AND PROCEDURES

serious enough to involve higher supervision. The individual should be told about the availability of the EAP.

- 4) Meeting. A private meeting should be scheduled to advise the employee that corrective actions must be taken for unacceptable work behavior, assistance is available through the EAP, and further steps may be taken if the employee's performance does not improve in 30 working days. It is important that the supervisor is specific about the behavior and is consistent in the evaluation of all employees reporting to them, fair by referring only to job performance, and firm and clear about what improvements are expected in job performance.
- 5) Follow up. After the initial performance discussion with the employee and after advising the individual of the availability of the EAP, the supervisor will continue to observe and document performance. If the employee's job performance has not improved in specified allotted time frame, another meeting should be scheduled. The employee's work record again should be reviewed and informed that work problems must be corrected or his/her job may be in jeopardy.

26.0020 MAINTENANCE OF RECORDS

The designated EAP contact person within the institution will maintain and secure all files pertinent to the EAP. These files will be kept separate from the employee's personnel files.

26.0030 CONFIDENTIALITY

Client records maintained by an EAP should adhere to Federal regulations on the confidentiality of alcohol and drug abuse records ([PL 93-282](#)) and the Privacy Act of 1974 ([PL 93-579](#)).

26.0040 RESOURCES

The EAP contact person should maintain current information about drug addiction and alcoholism treatment services and other resources. These include self-help groups, appropriate health care, community service, and other professionals.

26.0050 REFERRAL PROCESS

The program is designed to assure that no person with a problem will have job security or promotional opportunity jeopardized because of a request for assistance or treatment through the EAP. However, in no instance will participation protect the employee from disciplinary action for continued substandard job performance or policy infractions.

There are three ways in which an employee may become involved in the Employee Assistance Program:

- .01 Self-Referrals - Occurs at the employee's own initiative. The employee, recognizing a possible need for assistance, consults with an EAP contact person before job performance problems become an issue. No feedback is given to supervisors under this type of referral. Employees with problems for which the EAP can provide guidance or assistance are encouraged to voluntarily seek information, referral, and related services on a confidential basis by contacting the EAP.
- .02 Administrative Referrals - Initiated by supervisors or Human Resource Manager. When an employee fails a random drug test, the Human Resource Manager will refer the employee to the program. When serious performance problems are recognized, supervisors can refer an employee to the program. Supervisors are given feedback about the employee's level of cooperation in dealing with personal problems that may be causing poor performance.

SECTION 5 PERSONNEL POLICY AND PROCEDURES

Problems that affect work performance are a legitimate concern. One of the functions as a supervisor is to monitor performance by employees and take whatever corrective action is required. Early identification and referral of the employee can result in improved job performance and assist the individual in becoming more productive. The program should be viewed not as a disciplinary method, but as another option or tool for supervisors to use in correcting difficult performance problems.

- .03 Members of the employee's immediate family are also encouraged to seek information and assistance on a confidential basis by contacting the EAP.

26.0060 DOCUMENTATION

Documentation of problems and concerns is essential in order to identify and intervene with an employee. The EAP contact person will document referrals and/or use of the EAP by maintaining the following information:

- 1) Employee(s) involved,
- 2) Date of initial contact,
- 3) Referral by the supervisor or employee initiated contract,
- 4) Agency or individual where referred, and
- 5) Follow-up conducted appropriate to the problem.

26.0070 LEAVE

In instances where employees utilizing the EAP are required to be away from their work for an extended period of time, they may use earned annual leave, sick leave benefits, or Leave without Pay (LWOP) in accordance with the current College policies governing such leave.

5.27.0000 DRUG-FREE CERTIFICATION REQUIREMENTS

This certification is required by the regulations implementing the Drug-free Workplace Act of 1988, 34CFR Part 85, Subpart F. The regulations, published in the January 31, 1989-Federal Register, require certification by grantees, prior to award that a drug free workplace will be maintained. The certification set out below is a material representation of fact upon which reliance will be placed when the agency determines to award the grant. False certification or violation of the certification shall be grounds for suspension of payments and suspension or termination of grants of government-wide suspension or debarment (See 34 CFR 85, Sections [85.615](#) and [85.620](#)).

- .01 College Certification regarding Alcohol and Other Drug-Free Workplace Requirements. This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988. All College employees will certify on an annual basis that they fully understand the College's Drug-Free Workplace Requirements Policy. False certification or violation of the certification shall be grounds for suspension or termination.
- .02 Employees of the College shall sign the following certification indicating they understand the Alcohol and Other Drug-Free Workplace Requirements (See [Appendix A5-8](#)).

5.28.0000 HARASSMENT AND BULLYING POLICY

28.0010 HARASSMENT POLICY

The College will not tolerate harassment of its employees. Any form of harassment (verbal, written or physical conduct) related to an employee's race, color, gender, religion, national origin, sexual orientation, gender identity, age, or disability, genetic information, marital status, amnesty or status as a covered veteran, or any other protected class covered by law is a violation of this policy and will be treated as a disciplinary matter.

For these purposes, the term "harassment" includes, but is not necessarily limited to:

SECTION 5 PERSONNEL POLICY AND PROCEDURES

- Epithets, slurs, or negative stereotyping
- Threatening, intimidating or hostile physical acts:
- Demeaning jokes, or
- Written or graphic material that demeans, degrades, or belittles or shows hostility or aversion toward an individual or group and that is placed on walls or elsewhere on TMCC premises or circulated in the workplace, on TMCC time or using TMCC equipment via email, phone (including voice messages), text messages, tweets, blogs, social networking sites or other means. Sexual harassment constitutes discrimination and is illegal under Federal and State law. For the purpose of this policy, sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other verbal, or physical conduct of a sexual nature.

For example:

- Submission to such conduct is made either explicitly or implicitly a term or condition for an individual's employment;
 - Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or
 - Conduct that has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment.
 - Sexual harassment may include a range of subtle and not-so-subtle behaviors and may involve individuals of the same or different gender. Depending on the circumstances, these behaviors may include:
 - Unwanted sexual advances or requests for sexual favors;
 - Sexual jokes and innuendo;
 - Verbal abuse of a sexual nature;
 - Commentary about an individual's body, sexual prowess or sexual deficiencies;
 - Leering, whistling, or touching;
 - Display in the workplace of sexually suggestive objects or pictures; or
 - Any other physical, verbal or visual conduct of a sexual nature.
- .01 These policies apply to all applicants, employees or anyone directly or indirectly associated with or otherwise contracted with TMCC (ex. outside vendors, consultants or customers).
- .02 Conduct prohibited by these policies is unacceptable in the workplace and in any work related setting outside the workplace, such as during business trips, business meetings and business-related social events.
- .03 Individuals who believe they have been the victim of conduct prohibited by this policy statement or who believe they have witnessed such conduct should immediately report this to his or her immediate supervisor. The supervisor will promptly notify the Human Resource Manager, who will take steps to investigate the matter where appropriate, and recommend to the President disciplinary action. If the employee does not feel the matter can be discussed with the supervisor, the employee should arrange for a conference with the Human Resource Manager to discuss the grievance/complaint. Harassment of employees in connection with their work by non-employees will also be a violation of this policy. Any employee who becomes aware of any harassment of an employee by a non-employee or non-employee by employee should report such harassment to his or her supervisor or to the Human Resource Manager, who is responsible for investigating all such

SECTION 5 PERSONNEL POLICY AND PROCEDURES

incidents. Appropriate action will be taken against any non-employee who violates this policy. All incidents shall be reported to the President.

- .04 Violation of this policy by an employee shall subject that employee to disciplinary action, up to and including dismissal.
Violation of this policy by a non-employee will be addressed by the President that includes, but is not limited to, a three (3) member committee of full time employees.

SECTION 5 PERSONNEL POLICY AND PROCEDURES

Bullying/harassment may be the result of deliberate intention or not. Depending upon the severity and impact of the behavior, a single significant incident may constitute bullying/harassment, if it is found to be sufficiently offensive, threatening or intimidating. To determine whether or not bullying/harassment has occurred, each situation must be examined reasonably and objectively, based on its specific facts.

- the normal exercise of supervisory responsibilities, including performance reviews, direction, counseling and disciplinary action where necessary, provided they are conducted in a respectful, professional manner, in accordance with the College's policies and procedures;
- social interactions, jokes and bantering, which are mutually acceptable, provided the interactions are respectful and there is no negative impact for others in the work environment; and
- disagreements, misunderstandings, miscommunication and/or conflict situations, provided the behavior of the individuals involved remains professional and respectful.

Management personnel have additional obligations to make every reasonable effort to establish and maintain a workplace free of bullying or harassment. Related to this Policy, their responsibilities include but are not limited to:

- 1) Ensuring that employees have full access to information regarding employer policies and standards;
- 2) Respecting the rights of all parties to a fair, equitable and confidential process for responding to complaints;

Determine whether the alleged behavior meets the definition of bullying or harassment.

Step 2: Meet with each party separately to explain the investigation process

Inform both the complainant and respondent within three business days of the signed written complaint about the following:

- Expected timetable
- Overall process
- Roles and responsibility of anyone involved in the investigation (employers, supervisors, coworkers, investigators, witnesses)
- Confidentiality of the investigation (who will get copies of the report)
- Interim measures to limit the potential for bullying and harassment, if required (such as implementing a process to screen call of aggressive phone calls if the bullying or harassment is coming in that form)

Step 3: Select an investigator

An investigation must be fair and impartial. The investigator could be someone from within the College. In more complex or sensitive cases, an external investigator may be appropriate. A selection must be made within five business days of the signed and dated written complaint.

Step 4: Gather Evidence

- 1) Begin by speaking separately with both complainant and respondent. If the parties agree on the details of what happened, proceed to Step 5. If they do not agree, interview witnesses or others involved. Collect evidence from any parties involved, including email, handwritten notes, or other records that can help inform the investigation.

SECTION 5 PERSONNEL POLICY AND PROCEDURES

- 2) The investigator interviews the complainant within three days of (the investigator) receiving the written signed and dated statement. The investigator interviews to obtain a complete narrative of the allegations.
- 3) The investigator should be careful to distinguish between what the employee has personally witnessed or experienced and what the employee has heard from others.
- 4) The investigator should obtain in the interview the employee's response to the bullying/harassment and ask how the bullying/harassment has effected the employee (i.e. job performance). The investigator should obtain the identity of all witnesses to the bullying/harassment and any individuals with relevant information.

If the respondent denies the allegations, the investigator should ask if the complainant has any reason to lie (i.e. personality conflicts). The investigator should obtain from the respondent relevant documents or evidence that he or she may have and a list of other individuals that have information that would be relevant to the investigation.
- 11) The investigator interviews witnesses to the bullying/harassment incident(s) in order to conduct a thorough investigation. At the beginning of the interview, the investigator should provide the witness with a brief introduction that includes the reason for the interview, as well as a disclosure that the employee will not be retaliated against for providing truthful information.
- 12) During the interview, the investigator should ascertain what, if anything, the employee personally witnessed with regards to the bullying/harassment. This includes a detailed description of the respondent behavior toward the complainant and toward other in the workplace. The complainant's behavior/reactions during the incident.
- 13) The interviewer should obtain any communications that the witness has had with the complainant and/or the respondent regarding the incident(s).
- 14) The investigator should explore any other conduct that the witness has seen in the past that may be relevant to the complaint.
- 15) The investigator should obtain any relevant documents and identity of any other individuals with knowledge.

Step 5: Review the evidence and make a decision

SECTION 5 PERSONNEL POLICY AND PROCEDURES

Based on the available evidence, determine whether bullying/harassment occurred. Carefully consider whether the behavior meets the definition of bullying and/or harassment in these policies. The appropriate response depends on whether the allegations are corroborated, disproven or if the college is unable to reach a definitive conclusion regarding whether the allegations have merit.

The college should be mindful that a bully is not always a harasser, unless the conduct is directly at the target because of his or her membership in a protected group.

Allegations proven

If the investigation establishes that the employee was subject to bullying/harassment because of a protected class, then the college must take further appropriate action in accordance with the laws applicable.

If the investigation establishes that the employee was subject to bullying/harassment, the college must determine the appropriate level of discipline in accordance with the college disciplinary policy, in relation to the allegations.

Allegations disproven

If the allegations are disproven by the investigation, the employee should communicate the results to the complainant first. The college will not tolerate retaliation against the complainant. It is important that any action taken regarding the complainant not be perceived in a way that undermines the colleges policies or discourages future reporting of bullying/harassment by others.

Allegations inconclusive

The college should inform the parties involved that a thorough investigation was conducted and was inconclusive (no corroborating witnesses, documentation). The college should inform the complainant to immediately report any further instances of bullying, harassment, discrimination or retaliation.

Step 6: Discuss the findings

The investigator, employer or supervisor could meet separately with both the complainant and respondent, confidentially, to explain the investigation's findings.

Step 7: Take corrective action

The college should apply the disciplinary actions outlined in the personnel policy. The college must aid to fully address the incident and ensure that future bullying and harassment is prevented or minimized at the workplace.

Other corrective actions the employer might take include:

- Updating the workplace policy statement
- Putting new preventive steps in place
- Updating and providing training, education, and information for all workers
- Reminding supervisors and workers of their duties regarding bullying and harassment
- Ongoing monitoring
- A change in the reporting relationship if the respondent is the supervisor

Step 8: Keep a record

SECTION 5 PERSONNEL POLICY AND PROCEDURES

The investigative report should be kept and contain the following information:

- Complaint details
- Names of all the parties, including who made the complaint and who received the complaint
- When the report was made
- Details of the specific behaviors (including names and dates)
- A summary of interviews with the affected parties
- Any supporting documents reviewed during the investigation
- Outcomes and findings

The Board secretary will assist the search committee and coordinate clerical work, take minutes, notify members of meetings, etc. This person will sign the same confidentiality agreements as the committee, as outlined below. The HR Manager may be designated to do some of this work to ensure confidentiality or for timeliness. The HR Manager could serve as the secretary.

A Budget for the search should be determined in conjunction with the comptroller. The budget should include cost of advertising the position, travel of candidates to all interviews, postage, copying, etc.

The Search Process

Constituent Input: While the position is advertised, the search committee holds community and internal constituent feedback listening sessions to solicit input regarding the opportunities and needs of the college and to learn how they translate into expectations for the next president. The purpose of these sessions would be to hear all constituent concerns and to gather broad information about dynamics of the ideal candidate for a new president in the context of specific issues that may impact each group. The following constituent groups will be given the opportunity to share their perspectives:

- Students
- Faculty
- Staff
- Administrators
- The public

The search committee will devise the best method of eliciting feedback in person from each of these constituent groups.

First Meeting of the Search Committee: The names of the applicants will be told to the committee and each member will be given an opportunity to recuse themselves if necessary. Any member who recuses themselves still must sign the confidentiality agreement. After this, no substitutions of committee members are allowed. The purpose of this initial meeting is as follows:

- a) Acquaint committee members of the search procedures
- b) Address any specific instructions from the Board of Directors
- c) Set and commit to the schedule/timetable dates using the timeframe table in Appendix A3-2.
- d) Discuss importance of confidentiality, integrity, and ethics
- e) Sign confidentiality agreements, integrity, and ethics
- f) Set a budget for the search
- g) Review and update job description of the President to meet the current and future leadership needs of TMCC keeping in mind the constituent input.
- h) Assign a search committee member to develop the campus prospectus if this hasn't been completed at this point

Only the search committee and the HR Manager are to participate in the confidential work of the committee with the exemption of the budget and institutional data seen by the Comptroller and IRAA Director respectively.

At the first committee meeting, the HR Manager in conjunction with the chair of the committee will discuss the importance of confidentiality. All members of the committee must agree via a signed document to preserve the confidentiality of the search and the names of the candidates, to uphold integrity for a quality process, and to conduct themselves with integrity at all stages of it.

It is assumed that if a member of the search committee knows of a conflict of interest, that member will self-disclose prior to the initial meeting so that a replacement can be determined. If

any conduct occurs by a search committee member that violates the signed confidentiality, integrity, and ethics form, any member of the search committee draw attention to this matter. The chair of the committee is obligated to entertain via official committee action a motion to dismiss any committee member if there is evidence that a member has breached confidentiality of the search, or has a conflict of interest, or a committee member is believed to be unduly biased, a non-participant, or otherwise unable to fulfill his/her responsibilities in the search process. If the chair of the committee is the member dismissed, then the Board of Director member assumes the chair responsibilities. The decision of whether or not to dismiss a member as well as whether or not to replace the member will be based on the vote of the entire search committee. After the names of all candidates are known and the review process has started for them, members will not be replaced in the event that dismissal is required after this time.

- The Chronicle of Higher Education
- Inside Higher Education

- Higheredjobs.com
- Military Hire
- Tribal College Journal
- Local and state sources

Review Preparation:

Prior to commencing a review of the candidates, the committee should:

- a. Establish evaluation criteria and interview questions based on the qualifications described in the advertisement and job description. (This will be done after constituent listening session and prior to initial review of any applicants. The purpose of this timing is to avoid (the appearance of) biasing questions for or against a particular candidate.)
- b. Become familiar with requirements of the position and the required and preferred qualifications of the position.
- c. Discuss the role of the search committee members in representing first the best interest of the College, and second the constituencies that they represent; and
- d. Commit to the fair and just selection process presented by the HR Manager.

In consultation with HR Manager, the committee will commit to an initial application screening method used in personnel policy manual and identify those candidates who meet minimum qualifications. A letter should be sent to those who do not meet the minimum qualifications for the position as soon as practical. This will be done by the HR Manager.

From the pool of candidates who meet the minimum qualifications, the committee shall use the agreed upon evaluation criteria to rate the applicants. Additional information may be collected on the top rated group of candidates by the HR Manager.

Applicant Review:

Once the additional information is collected, the committee will meet to review the applications of the candidates and to discuss the additional information. The committee will then select a group to be interviewed. The interview site selected must be designed to assure that confidentiality of the names of the candidates will be maintained.

All members of the search committee must attend the personal interviews in person. A video conference interview is allowable for the candidate.

Following the interviews, the committee will meet to discuss and review the qualification of the candidates interviewed and to select a small group of no more than five as semifinalists. Candidates other than the semifinalists should be notified prior to the release to the public of the names of those candidate semifinalist invited to campus visits.

Campus Visits:

At this point, the search can proceed with publically announced campus visits by the semifinalist. Where appropriate during campus visits, the candidates spouse/partner or family members may also be invited to visit.

Up to this point in the search process, the names of the candidates have been kept confidential. When the semifinalists are scheduled to visit campus, their names are released to the public, along with general information about their background and qualifications. It is recommended that the name of each be made public at least 48 hours prior to the campus visits. The names can be released at the same time or staggered throughout the process.

Campus visits should be designed to allow a large number of campus and community members to meet and hear from each candidate. There will be an open meeting for each candidate to present to all internal and external constituents. The Board of Directors is expected to attend these open public meetings and to evaluate the merits of each candidate along with other constituents.

At this stage, a final interview occurs with all Board of Directors members to be held on campus

Selection Process

The Board of Directors shall meet and deliberate on the merits of each semi-finalist given the data generated from search committee screening interviews, constituent feedback and final interview. A thorough background check begins on the top two candidates. The following will be checked:

- a. Social security number verification
- b. Criminal history check
- c. Civil litigation history check
- d. Education verification
- e. Employment verification
- f. Personal credit history check
- g. Verification of tribal enrollment (if applicable)

The Board of Directors will meet again to discuss the thorough background check and the selection of the President.

The following day, the Board of Director Chairman and the HR Manager together will notify the candidate.

In the event that negotiation cannot be reached with the candidate and the Board of Directors, the board will notify the candidate that the offer of employment is revoked.

The Board of Directors will meet again to determine if the second top candidate will be offered the position or to advertise

APPENDIX A4-3 INDEPENDENT CONTRACTOR TEST

Independent Contractor Test
Taken from IRS Publication 15-A

Behavioral control

Facts that show whether the business has a right to direct and control how the worker does the task for which the worker is hired include the type and degree of—

1. *Instructions the business gives the worker.* An employee is generally subject to the business' instructions about when, where, and how to work. All of the following are examples of types of instructions about how to do work:
 - a. When and where to do the work
 - b. What tools or equipment to use
 - c. What workers to hire or to assist with the work
 - d. Where to purchase supplies and services
 - e. What work must be performed by a specified individual
 - f. What order or sequence to follow

The amount of instruction needed varies among different jobs. Even if no instructions are given, sufficient behavioral control may exist if the employer has the right to control how the work results are achieved. A business may lack the knowledge to instruct some highly specialized professionals; in other cases, the task may require little or no instruction. The key consideration is whether the business has retained the right to control the details of a worker's performance or instead has given up that right.

2. *Training the business gives the worker.* An employee may be trained to perform services in a particular manner. Independent contractors ordinarily use their own methods.

Financial control

Facts that show whether the business has a right to control the business aspects of the worker's job include:

3. *The extent to which the worker has unreimbursed business expenses.* Independent contractors are more likely to have unreimbursed expenses than are employees. Fixed ongoing costs that are incurred regardless of whether work is currently being performed are especially important. However, employees may also incur unreimbursed expenses in connection with the services they perform for their business.
4. *The extent of the worker's investment.* An employee usually has no investment in the work other than his or her own time. An independent contractor often has a significant investment in the facilities he or she uses in performing services for someone else. However, a significant investment is not necessary for independent contractor status.
5. *The extent to which the worker makes services available to the relevant market.* An independent contractor is generally free to seek out business opportunities. Independent contractors often advertise, maintain a visible business location, and are available to work in the relevant market.
6. *How the business pays the worker.* An employee is generally guaranteed a regular wage amount for an hourly, weekly, or other period of time. This usually indicates that a worker is an employee, even when the wage or salary is supplemented by a commission. An independent contractor is usually paid by a flat fee for the job. However, it is common in some professions, such as law, to pay independent contractors hourly.
7. *The extent to which the worker can realize a profit or loss.* Since an employer usually provides employees a workplace, tools, materials, equipment, and supplies needed for the work, and generally pays the costs of doing business, employees do not have an opportunity to make a profit or loss. An independent contractor can make a profit or loss.

Type of relationship

Facts that show the parties' type of relationship include:

8. *Written contracts describing the relationship the parties intended to create.* This is probably the least important of the criteria, since what really matters is the nature of the underlying work relationship, not what the parties choose to call it. However, in close cases, the written contract can make a difference.
9. *Whether the business provides the worker with employee-type benefits, such as insurance, a pension plan, vacation pay, or sick pay.* The power to grant benefits carries with it the power to take them away, which is a power generally exercised by employers over employees. A true independent contractor will finance his or her own benefits out of the overall profits of the enterprise.
10. *The permanency of the relationship.* If the company engages a worker with the expectation that the relationship will continue indefinitely, rather than for a specific project or period, this is generally considered evidence that the intent was to create an employer-employee relationship.

The extent to which services performed by the worker are a key aspect of the regular business of the company. If a worker provides services that are a key aspect of the company's regular business activity, it is more likely that the company will have the right to direct and control his or her activities. For example, if a law firm hires an attorney, it is likely that it will present the attorney's work as its own and would have the right to control or direct that work. This would indicate an employer-employee relationship.

APPENDIX A4-6 PROCEDURES FOR DRAWDOWNS

Procedures for drawdowns:

Electronic drawdowns are performed through the secure website such as Award Cash Management Service (ACM\$). Physical drawdowns are prepared for and signed by the Comptroller.

A review of the ledger is performed by the accountant to look for errors in posting or unallowable costs. Errors detected are corrected prior to the draw.

The payment request amount is calculated as the difference between the cumulative expenses as of the end date of the month or period of the drawdown is for and the amount of the last drawdown.

The cumulative amounts should come from the cumulative budget vs actual statements for each grant or contract. These statements are prepared using reports pulled from the accounting system. The individual payment request by fund can be tied back to the expense detail report from the accounting system.

The payment calculations are viewed by the Comptroller. The accountant enters the amounts for each award into the drawdown systems such as ACM\$. The accountant can submit and certify the final drawdown.

A copy of the ledger and the cumulative budget vs actual statement is provided to the program director and the comptroller.

Pre-employment: Applicant will be refused employment and will not be allowed to reapply for 6 months.

Random, Reasonable Suspicion or Post-Accident Test. Employees and subsidiaries of TMCC will be subject to immediate corrective action after a positive random test, a positive test based on reasonable suspicion, or a positive test after an accident, a citation by law enforcement or loss of license or credentials necessary to complete employee's job duties.

Initial Positive Test. The first time an employee of TMCC or its subsidiaries is confirmed to have tested positive, they will be referred to TMCC's Employee Assistance Program (EAP) for an evaluation at the employee's expense and may be suspended without pay. Employees must schedule an appointment with the designated agency within five (5) working days or they will be terminated. Employees will be required to have a negative drug test conducted by Turtle Mountain Community College before returning to work. The employee can use accrued sick or annual leave or can take leave without pay to complete the recommended counseling/treatment. Employees refusing to submit to an evaluation and recommended counseling/treatment will be terminated. Employees who report to work under the influence of drugs or alcohol will not be allowed to drive themselves home or elsewhere (appropriate arrangements will be made). Refusal to comply with this rule may result in immediate termination.

Employees Requiring Counseling/Treatment. If the evaluating agency concludes that an employee should receive further counseling or treatment for substance abuse, the employee must meet with the Human Resources Department to discuss available counseling and treatment options and available coverage. The employee will be required to complete and comply with all the conditions set forth by the Turtle Mountain Community College and chosen program. This can include returning to work immediately upon completion of the five (5) working day suspension or leave of absence. Employees refusing to comply with the recommendations of counseling/treatment will be terminated.

Employees Not Requiring Counseling or Treatment: If the evaluating agency concludes that an employee who is confirmed to have tested positive does not require counseling or treatment at this time, or is able to work during treatment, such employee will return to work upon completion of the five (5) working day suspension. Such employee must enter into an agreement with Turtle Mountain Community College and will then be subject to unannounced drug/alcohol testing for up to 12 months. If any of these unannounced tests are positive, the employee will be terminated.

Counseling and treatment will be at the expense of the employee.

S. Agreement

Employees who return to work following suspension due to positive drug or alcohol test results must agree to the following:

- Employees must provide a release to work from the evaluation or counseling program indicating successful completion.
- A negative test for drugs or alcohol.
- An agreement to frequent follow-up test for a period of 12 months.
- An agreement to follow specific after care requirements with the understanding the violation of the agreement is grounds for corrective action and possible termination.

Employees will be allowed to use their own accrued leave or utilize leave without pay to complete aftercare requirements.

T. Second Failure

If the employee tests positive a second time, the employee will be terminated and will not be considered for employment by the Turtle Mountain Community College for a period of (12) months.

POSITIVE DRUG TEST PROCEDURES

In the event you have a positive drug test, these are the steps that you will need to follow as a condition of your continued employment with the Turtle Mountain Community College. **The steps are as follows:**

1. You will be asked to explain why you have a positive drug test. The Turtle Mountain Community College President or designee will be informed immediately of the positive test.
2. If you do not deny the test results, step three will be followed. If you deny the findings of the test, the results will be sent to the Drug Check Lab for further analysis, along with any prescriptions you have been prescribed. If the results of the Drug Check Lab confirm your positive test and you do not have a valid prescription or are using illegal drugs you will go to step three.
3. You will receive a letter of referral to the **Employee Assistance Program**. As a condition of continued employment, you as an employee must then contact the E.A.P. within 5 working days to schedule an evaluation by a certified counselor. You must then contact a certified counselor and provide a copy of the evaluation report and recommended Treatment Program to E.A.P. within 5 working days. Any employee who needs inpatient treatment for drug or alcohol addiction will be allowed to use accrued sick leave or annual leave until depleted, and can then apply for leave without pay.
4. You as an employee will have to show proof of enrollment in a treatment program, either inpatient or outpatient basis with the written permission of the Turtle Mountain Community College President or designee.

If an employee tests positive for drugs, they will only be allowed to return to work if they have enrolled in a treatment program and passed a drug test conducted by the Turtle Mountain Community College. They will only be able to continue working for the Turtle Mountain Community College if they finish their treatment program and continue to pass periodic drug tests conducted by the Turtle Mountain Community College as a condition of their employment. In the event the employee fails another drug test or does not finish their treatment program, they will be automatically terminated.

Employees that test positive for drugs and claim to have a prescription will be allowed to return to work pending the results of the confirmed test, providing they give a copy of their prescription to the HR Manager upon being tested or within 24 hours. In the event they fail to provide a copy of their prescription within 24 hours, the employee will be placed on leave without pay. If the confirmed test proves that the drug found in the positive sample is for an illegal drug or the employee does not have a prescription for that drug, the employee will be treated the same as a positive test for illegal drugs and will follow the same procedures, and will be referred to step 3 above.

I have read and understand the procedures that I will need to follow as a condition of my continued employment.

The following rules are intended to provide general guidelines and examples of prohibited use. Failure to comply with these rules may result in loss of computer and internet access privileges, disciplinary action, and/or legal action.

- All users shall have no expectation of privacy regarding computer files, email, or internet usage. Turtle Mountain Community College reserves the right to monitor all computer files, email, and internet usage without prior notice.
- All users may not attempt to gain unauthorized access to any other computer system or go beyond their authorized access. This includes attempting to log in through another person's account or access another person's files. These actions are illegal, even if only for the purposes of "browsing."

Email Policy:

Definition:

Use of email by staff, faculty, and students is permitted and encouraged where such use supports the goals and objectives of the institution.

Policy Statement:

Users of TMCC's email services are expected to act in accordance with the following policies and with professional and personal courtesy and conduct.

- Email is an official means of communication at TMCC. The institution may send communications to users by e-mail and has the right to expect that those communications will be received and read in a timely fashion. Information sent via e-mail has the same importance and needs to be responded to in the same manner as information sent in other ways.
- The Information Technology personnel will assign all users an official institution e-mail address. It is to this address that the institution will send all official e-mail communications.
- Any emails that discriminate against employees by virtue of any protected classification including race, color, gender, religion, national origin, sexual orientation, age, or disabilities, will be dealt with according to the harassment policy.
- All users are expected to read and properly dispose of e-mail promptly. Prompt disposal of e-mail is necessary to manage storage space on the institutional e-mail system. Disposal may include deletion, filing into alternate folders on the institutional servers, or moving the e-mail onto the user's own computer. The institution reserves the right to purge mail from accounts. Prior notification will be given if that notification is feasible and practical to allow users time to save messages.
- All users of electronic communication, including e-mail, need to realize that communication of this type usually leaves traces as to its origin and destination as well as its content. The simple deletion of e-mail or other electronic files does not remove these traces and the file or e-mail is often recoverable for some time after deletion. Further,

users need to realize that the institution makes regular archival copies of all e-mail to ensure the system's integrity and that these archives exist for some time. Therefore, although TMCC's e-mail system and governing policies may grant some privacy to users e-mail, users should treat all e-mail as if they were public documents.

- In some cases, a user may wish to configure his or her TMCC account to forward e-mail to another address. The user takes full responsibility for the correct configuration of that forwarding. The institution takes no responsibility for the handling of e-mail in this fashion. The use of automatic e-mail forwarding does not absolve the user from the responsibilities associated with e-mail sent to the user's official e-mail address. The institution may forbid the automatic forwarding of e-mail in cases where it is found to be problematic. Additionally, the institution may delete e-mail forwarding or other automated e-mail handling rules that cause system problems without prior notification.
- Send or attempt to send spam of any kind.
- The institution uses spam filtering tools to help control unwanted email. The institution will continue to stay up-to-date with the latest spam filtering techniques and will adjust its own processes when warranted. However, no current spam filtering technique is completely effective and will let mail through that should be blocked and occasionally block e-mail that should be delivered. Moreover, each person's definition of spam is unique. Given that, users should expect that on rare occasions, legitimate e-mail may be blocked from delivery. If this happens please contact the IT Department for further assistance.
- Once an employee has resigned or been terminated; or a student has withdrawn or graduated, they will have two weeks to save any email. After the two weeks the account will be deleted.
- Sending mass email that is unrelated to an individual's administrative or academic activity is completely prohibited. Mass e-mails are defined as messages sent to all students, all staff, all faculty, or when individual recipient addressees are not defined. IT manages e-mail distribution lists of current staff, faculty, and students. There is no opt-out provision for these lists. If you need to attach a large file, please contact the IT Department for alternate methods of distribution.
- Keep in mind that the TMCC owns any communication sent via email or that is stored on institutional equipment. Administration and other authorized staff have the right to access any material in your email or on your computer at any time. Please do not consider your electronic communication, storage or access to be private if it is created or stored at work.
- Users that sign a contract to use TMCC equipment including but not limited to laptops, tablets and other electronic devices are responsible for the replacement of damaged, lost or stolen equipment.

Applications that require large amounts of bandwidth, or are sensitive to changes in signal quality and strength may not be appropriate for wireless access.

Enforcement

Users who violate these policies may be denied access to institution computing resources and may be subject to other penalties and disciplinary action, including possible expulsion or dismissal. Alleged violations will be handled through the institution disciplinary procedures applicable to the user. The institution may suspend, block, or restrict access to an account, independent of such procedures, when it reasonably appears necessary to do so in order to protect the integrity, security, or functionality of institution or other computing resources or to protect the institution from liability.
