Good Morning Students

A disbursement will be made tomorrow for students who are eligible to receive the COVID-Emergency Relief Funding. To qualify, you must have a "need". You also must be a degree seeking student or enrolled in a certificate program to qualify. There are different amounts that have been awarded based on your need. The amount you will receive was based on the number of credits you are currently enrolled in and your expected family contribution. Students who are enrolled in dual credit classes or are enrolled in a non-degree program are not eligible for this disbursement.

Please let me know if you have any questions.

Thank you, Wanda
